COVID-19 TEST REPORT

Date and time of reporting:	02-02-2022 6:00 PM
Referred by -name of facility / self:	PMCH
Specimen Details	
Date and time of sample collection:	02-02-2022 10:00 AM
Date and time of receipt of specimen at the lab	02-02-2022 12:00 PM
Condition of specimen received/quality on arrival	Good
Reporting Details	
SRF ID:	938/PTA/202202422

SI	Patient ID	Patient name & Address	Age	Gender	Specimen Type	type of test	COVID-19 Result
1		JESS JAMES PRASAD VANCHIPALAM PODIYADI THIRUVALLA PATHANAMTHITTA	19	M	NASOPHARYNGEAL SWAB	RTPCR	POSITIVE

Note: The results relate only to the specimens tested and should be correlated with clinical findings.

Interpretation guidance:

1. Testing of referred clinical specimens was considered on the basis of request/referral received from/ through state surveillance officer(SSO) of concerned State Integrated Disease Surveillance Programme / any other health care facility affirming requirements of the case definition/s or by self.
2. Repeat sampling and testing of lower respiratory specimen is strongly recommended in severe or progressive disease. The repeat specimens may be considered after a gap of 2-4 days after the collection of the first specimen for additional testing if required.
3. A positive alternate pathogen does not necessarily rule out either, as little is yet known about the role of coinfections.

Please note that these results are not to be used for any thesis or presentations or publication in any journal without the prior permission of the Director General, ICMR.
